

UNIFIED AMD Installer

Welcome

We are glad you have chosen AMD as your platform development partner. This program can install the AMD products including Vitis, Vivado Design Environment, Lab Edition, Bootgen, HW_Server, Power Design Manager and Documentation Navigator.

Supported operating systems for 2025.1 are:

- Windows 10 Professional and Enterprise versions 22H2: 64-bit
- Windows 11 Enterprise 23H2, 24H2: 64-bit

Note: Individual products in this installer may support a smaller subset of this list. Please refer to the relevant User Guides for the latest OS information.

Note: This release requires upgrading your license server tools to the Flex 11.17.2 versions. Please confirm with your license admin that the correct version of the license server tools are installed and available, before running the tools.

To reduce installation time, we recommend that you disable any anti-virus software before continuing. Please disable any power saving settings of your machine (automatic sleep mode) when running the installer.

Select Install Type

Please select install type and provide your AMD.com E-mail Address and password for authentication.

User Authentication

Please provide your AMD user account credentials to download the required files.
If you don't have an account, [please create one](#). If you forgot your password, you can [reset it here](#).

Password

☐ Download and Install Now

Select your desired device and tool installation options and the installer will download and install just what is required.

☒ Download Image (Install Separately)

The installer will download an image containing all devices and tool options for later installation. Use this option if you wish to install a full image on a network drive or allow different users maximum flexibility when installing.

Select the directory where you want the software to be downloaded

Download files to create full image for selected platform(s)

☒ Windows ☐ Linux ☐ Zip archive (Note: This will increase the time and requires more disk space.)

Select Install Type Select Product to Install

Select a product to install. If you are installing for the first time, select the product you want to install. If you are upgrading, select the product you want to install.

- ☐ Vitis
- ☒ **Vivado**
- ☐ Vitis Embedded Development
- ☐ BootGen
- ☐ Lab Edition
- ☐ Hardware Server
- ☐ Power Design Manager (PDM)
- ☐ Documentation Navigator (Standalone)

Select Edition to Install

Select an edition to continue installation. You will be able to customize the content in the next page.

☐ Vivado ML Standard

Vivado ML Standard Edition is the no-cost, device limited version of the Vivado ML Enterprise edition. Users can add Vitis Model Composer which is an AMD toolbox for MATLAB and Simulink to design for AI Engines and Programmable Logic. If you have been using AMD System Generator for DSP, you can continue development using Vitis Model Composer.

☒ **Vivado ML Enterprise**

Vivado ML Enterprise Edition includes the full complement of Vivado Design Suite tools for design, including C-based design with Vitis HLS, implementation, verification, and device programming. Complete device support, cable drivers, and documentation Navigator are included. Users can add Vitis Model Composer which is an AMD toolbox for MATLAB and Simulink to design for AI Engines and Programmable Logic. If you have been using AMD System Generator for DSP, you can continue development using Vitis Model Composer.

Vivado ML Enterprise

Customize your installation by (de)selecting items in the tree below. Moving cursor over selections below provide additional information.
